

Arenco VMK 16/11 Filleting line

The Arenco VMK 16/11 Filleting Machine is a high-precision combination heading and filleting machine which produces high-yield butterfly or single fillets with a clean, smooth appearance. The versatile Arenco VMK 16/11 may also be configured to produce deli-style dressed fish, utilizing a brush and grindstone to carefully clean out the belly cavity. When utilized with a Arenco VMK feeder the Arenco VMK 16/11 is capable of working at extremely high speed, processing up to 300 fish per minute.

If required, the filleting section can be operated as a hand-fed stand-alone unit.

Species handling capabilities include herring, mackerel, horse mackerel, blue whiting and similar species. The machine can also be configured to process smaller fish, such as sardines, kilka and sardinella.

The Arenco VMK 16/11 Filleting Machine is made of all non-corrosive material and complies with all CE machinery directives.

Arenco VMK 16/11 Filleting Machine

Optional Equipment

- Roe and milt chute for the collection and separation of milt and roe
- Fillet conveyor to carry out fillets
- Equipment for water saving and separating fish waste
- Deli-style eviscerating attachment

Complementary Equipment

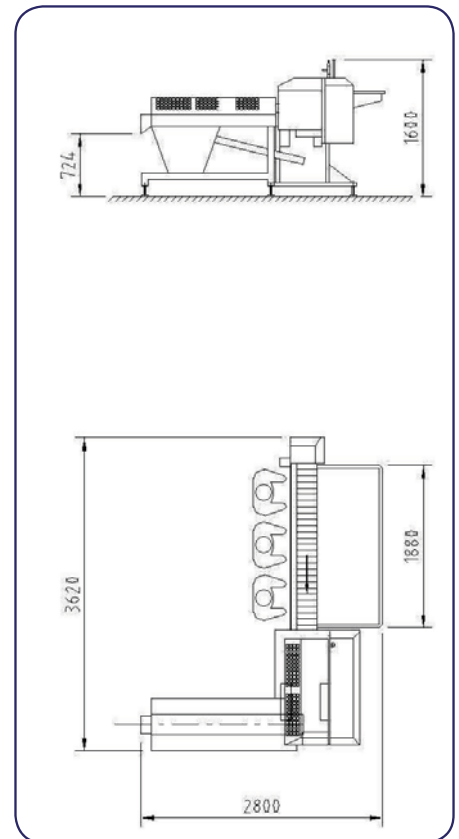

- Arenco VMK Automatic Feeders for high-speed feeding
- Arenco VMK Tidbit Machines for production of pieces
- Arenco VMK Skinning Machines
- Arenco VMK Scaling Machines for processing horse mackerel

Capacity

FISH POCKETS	FISH /KG	FISH/MINUTE
45 mm	10-30	250-300
60 mm	4-20	225-275
75 mm	2,5-8	200-250
90 mm	2-6	200-250

Technical Specifications

Power Consumption	4.1 kw
Water Consumption	30 liters/min
Water Pressure bar	3
Net Weight	1 170 kg
